

# SCAG Connect SoCal

Connect SoCal is a long-range visioning plan for the future of Southern California that identifies challenges the region is going to face in the next 25 years and solutions to address them. The plan will encompass future mobility and housing needs with economic, environmental and public health goals. But, we can't do it alone - **we need your input** to shape SoCal's future!

## GET INVOLVED!

As the plan is being developed, SCAG will host interactive community workshops and stakeholder working group meetings. Your feedback will help create the long-term plan. Nearing the end of the plan's development, SCAG will release a draft of Connect SoCal for a 60-day public review and comment period.

## TAKE THE SURVEY!

To make it easier for the communities to participate, SCAG has provided an electronic survey as another way to collect the public's input:
