Re-Pete's Wisdom of the Week - Put the Phonebook on Hold

Public Services

Repete's Wisdom of the Week - Put the Phonebook on Hold. Yellow Pages publishers want their products to be welcome in your home.

For more than a decade, the Yellow Pages industry has taken proactive measures to decrease their carbon footprint. They are constantly working to transform and innovate their business so that they can continue supporting local businesses and consumers in the most environmentally friendly way.

Yellow Pages wants to connect local customers to local businesses whether it is through directories in print, on the Internet or on a mobile app. While many people still rely on print directories to make local purchase decisions, Yellow Pages publishers know that there is no point of delivering a print directory to someone who does not want one. That is why we came together to create YellowPagesOptOut.com, to give consumers the choice to limit or stop the delivery of print directories to their homes. Consumer choice is part of the Yellow Pages sustainability efforts.

Did You Know?

- Publishers use leftover lumber and recycled material for directories.
- Directory paper demand is dropping by 60 percent.
- Directories are made with non-toxic inks, dyes and adhesives.
- Yellow Pages directories have a high recycling rate.

To learn more about ways they are helping the environment; please visit the following address YellowPagesOptOut.com.

Engineering

Major Milestone Coming Friday for the New Greenspot Bridge! The contractor will place concrete for the deck of the new Greenspot Bridge this Friday, 8/22. The new bridge is located downstream of the existing iron bridge at Santa Ana River. Concrete placement will begin at 4:30 a.m. and will take approximately 8 hours to place the 600 cubic yards of concrete for the deck of the bridge. The project is over 50% complete and remains on schedule. It is expected the newly bridge and realigned road will be open to traffic

November 2014 and the entire project, including rehabilitation of the existing iron bridge, to be finished by February 2015.

Greenspot Road Closure Scheduled.

Greenspot Road will be closed at Santa Ana River next Thursday, 8/28, from 9:00 a.m. to 2:00 p.m. The closure is needed to gather detailed measurements for the repair of the existing iron bridge. The repairs, which are part of rehabilitation of the existing bridge, are scheduled to begin in November, after opening the new bridge to the public. Signs notifying the public of the closure have been placed on Greenspot Road.

Administration

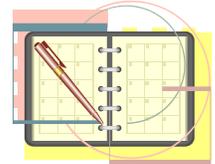

Emergency Preparedness - Maintaining your kit. Just as important as putting your supplies together is maintaining them so they are safe to use when needed. Here are some tips to keep your supplies ready and in good condition:

- Keep canned [food](#) in a cool, dry place.
- Store boxed food in tightly closed plastic or metal containers to protect from pests and to extend its shelf life.
- Throw out any canned good that becomes swollen, dented or corroded.
- Use foods before they go bad and replace them with fresh supplies.
- Place new items at the back of the storage area and older ones in the front.
- Change stored food and [water supplies](#) every six months. Be sure to write the date you store it on all containers.
- Re-think your needs every year and update your kit as your family's needs change.
- Check batteries. Throw out any that are corroded or discharged and replace with fresh ones.
- Check medication and first aid items. Throw out any that are beyond their expiration date and replace.

Keep items in airtight plastic bags and put your entire disaster supplies kit in one or two easy-to-carry containers, such as an unused trashcan, camping backpack, plastic tote bin or duffel bag. For more information about disaster preparedness, please visit www.ready.gov.

Finance
